

Allegheny County Veteran Suicide Prevention Conference

I wanted to let you know we are going to have a Veteran Suicide Prevention Conference in a couple weeks! This is **open to anyone who is a service member, veteran, or family member and those who are in a professional role that may interact with veterans**. The structure is to have more professional workshops that look at things like military culture, homeless services, and moral injury in the morning, a Keynote for all audiences, lunch/networking, and afternoon of workshops that might be of interest to SMVF like Mindfulness, benefits, and Safety Planning.

Overall we are planning 13 workshops and the keynote to give a large amount of variety.

There will be a large resource fair and we want to encourage connection across the community.

The conference is free we just ask for those to register so we can have some accurate counts.

[Link to Register](#)

If you can't participate, but want to help, please share the conference with social media, friends, flyers, etc. It is helpful to get this to the broadest audience.

Please let me know if you have any questions!
